## THREE POWERS UNITE TO AVERT BIG WAR

### FREAR MAY SUFFER IN NEW ROW

Dixon Heads Progressive Plan to Block All of Taft's Appointments

[Special Star-Bulletin Correspondence]  
WASHINGTON, D. C., Nov. 16.—A Democratic Governor of Hawaii may come straight off the bat after March 4. This is now a strong possibility, although until recently it was a remote probability. The post-election bitterness of the Progressive Republican Senators is responsible for the changed situation.

The Progressives, headed by Senator Dixon, who was Col. Roosevelt's political manager during the campaign, and who became almost rabid

### FREAR AND LINDSAY TO STUDY LAW ON DESERTED ISLAND

Fleeing from the hurly-burly of Honolulu, with the Legislature preparing to hold session, the Governor and the Attorney General "hope" to take three weeks off, and hide them to parts unknown on board the United States Revenue Cutter Thetis. Just when they are going is not yet known, but the plans are practically complete, with that exception. It is stated that the officials desire to "study laws" for the next Legislature to pass upon and they need the peace and quiet that can be found only upon some deserted island off on the broad breast of the Pacific.

### J. P. COOKE IS CONFIDENT OF ROSY FUTURE

"I feel perfectly confident about the future. One of the best elements of the situation is the decision of the Democrats to hold a special session of Congress for tariff revision, coupled with the fact that so many Northern Democrats will favor part of the majority in the House. This, taken with Wilson's assurance that his policy is one of moderate tariff reduction, is reassuring. If the uncertainty of tariff changes was kept up for thirteen months, everybody would be discouraged before that time—J. P. Cooke."

"I have been away for more than a half month," said Joseph P. Cooke, to a Star-Bulletin reporter today. "I spent two months in British Columbia on a vacation, and six weeks in the east. After visiting my brother in Plainfield, N. J., I came

### Captain Berger At Home Again Glad And Of It

Winds Up Happy Six Months' Vacation with 'Honolulu Looks Glorious'

"Honolulu looks glorious; I will never leave it again," said Captain Heinrich Berger, as he stepped off the Wilhelmine this morning, returning from his six-months trip to the United States and Germany. He further stated that the climate in the fatherland was not the best that could be expected while he was there and that he had longed many times to be back in Hawaii and again.

Captain Berger left Honolulu in middle of June on a leave of absence from his duties as leader of the Royal Hawaiian Band. He traveled direct to New York and from there took a steamer to Hamburg, and it was during his trip home that he visited several of the largest cities on the mainland.

"Works" in Hamburg.  
"We went from Honolulu to San Francisco," said Captain Berger this morning, "and after a short stay in that city we went direct to New York and took the Cleveland for Hamburg. On our arrival in Hamburg, we went to Berlin the same day and arrived there just in time to join with the other Americans for I am an American now, you know, in the celebration of the Fourth of July, and I must say that it was a grand event."  
"The only thing that the Americans in Hamburg were up against was the weather, as in that city it is a difficult thing to secure the 'Star-Spangled Banner' by a German band. I was called upon by a delegation of the Americans there and succeeded in getting together a band to play patriotic airs for them. It was indeed an enthusiastic celebration."  
Praise for Vienna.  
"We remained in Berlin during the month of July, and took several side trips to a few of the smaller cities including Breslau. From Berlin we

(Continued on page 3.)

E. FAXON BISHOP, is back from a business trip to the mainland which carried him to the financial centers on the east coast. Accompanied by Mrs. Bishop they were passengers by the Matson Navigation liner Wilhelm.

### Where Europe's Armies May Be Flung

A typical piece of Balkan scenery, showing the nature of the country in which the fighting has been taking place, and the position of the Peace negotiations between Turkey and the Balkan Allies. He has just been appointed Turkish ambassador to Vienna.

### B. RIVENBURGH MENTIONED FOR GOVERNORSHIP

After simulating, for a time, the governorship post has begun to bubble once more and out for the stands of men that are arising comes the name of Bertram Rivenburgh, at present secretary to his honor the Mayor of Honolulu.

Rivenburgh was asked this morning if it were true that he has been mentioned as a compromise candidate for the job now held by W. F. Frear, and declined to make any statement. "I have heard that my name is being used in some quarters," was all that he would say. He declined to express himself regarding his attitude toward the possible appointment, beyond asserting that he has made no steps toward obtaining any endorsements from the precincts.

From one of the friends of the Mayor's secretary the position of the man back of the Rivenburgh boom for the governorship was made plain. "Rivenburgh is one of the most astute politicians in either party in Honolulu. He is a man who has studied conditions here and on the mainland for nearly ten years. He is a practical man, with a practical training. He is a man who keeps his ear to the ground, who has no fish to fry beyond doing his duty in any position to which he might be called. He is a man who has been a leading Democrat for years. He is young and active. If there is anything in his past record that would count against him in the contest for the position, I have yet to hear it and I have lived here many years. He could go into office unopposed, without strings, political or commercial. While progressive he is not a radical. His friends want him in the executive office and are going to work for him."

### STAR-BULLETIN NEWSBOYS WILL CELEBRATE THANKSGIVING

Newsboy Dinner to Be Served by Jungclaus at County Park

Star-Bulletin newsboys to the number of a hundred and more will give thanks in true newsboy style on Thanksgiving Day.

Thanksgiving has always been one of the red letter days of the year for the newsboys of the afternoon field. The only exception this year is that the latter will be redder than usual. The program as at present arranged calls for the boys to assemble at the Star-Bulletin main office on Alakoa street early in the morning and be ready to board special cars of the Rapid Transit Company at 9 o'clock sharp. These cars will carry them on a tour throughout the city on the lines of the street car system. This will land the boys at the County Park at about noon. There they will have the whole park and the whole ocean in which to sport till the time for dinner. Dinner is what every boy looks forward to and this year's feast is to be

### President Of "Philies" Quits; A. B. Weyler Takes His Place

[Associated Press Cable]  
NEW YORK, November 25.—President Horace Fogel, of the Philadelphia National club, tendered his resignation suddenly this morning, although retaining his stock in the ball club. Alfred B. Weyler, an attorney and a heavy stockholder in the club, has been elected to succeed him. Fogel insists that the charges he made against the umpires of the national league, alleging that they were in a conspiracy to throw the championship of the league to the New York "Giants," be pressed by the league and says that while he is no longer an official he will continue the fight as a stockholder.

It is reported here that Christy Mathewson, the pitcher of the Giants, will buy the club. It is understood that Mathewson will receive all the backing he needs for the purchase, and that the deal will go through unless unforeseen difficulties arise.

### John Bush Dead

[Associated Press Cable]  
NEW YORK, November 25.—John Bush, the baseball magnate, whose rise to fortune as the owner of several of the most famous baseball clubs of the country was one of the romances of the game, died at his rooms in his hotel this morning. For several years Mr. Bush has been suffering from locomotor ataxia, although he managed to attend to his business interests to the last. At the time of his death Mr. Bush was the principal owner of the New York "Giants" and had extensive interests in other baseball clubs.

### Gunmen Sentenced To Chair

[Associated Press Cable]  
NEW YORK, November 25.—The gunmen, Gyp the Blood, Lefty Louis, Frank Cirofici and Whitey Louis, were sentenced to death in the electric chair this morning by Justice Goff. The men were at once started to Sing Sing, where they will undergo the penalty for their crimes, January 6, next.

### 'Two To One On Wolgast

[Special Star-Bulletin Cable]  
SAN FRANCISCO, Cal., November 25.—With the sound of the gong that shall call Ad. Wolgast and Willie Ritchie for the big fight, the interest in the coming match here is intense. The betting, which has been slack, has taken on a new vim and the odds of 2 to 1 on Ad. are now quoted freely ported to be in tip top fettle and both are said to be confident of bringing home the bacon.

### 'MANCHU' ORDER IS CLEARLY DEFINED

Just what is a "Manchu" is the question which officers of this department have been asking ever since the last army appropriation act automatically stopped the pay of officers who had less than two years actual duty with troops during the last six years. The term "duty with troops" is so elastic that it has remained for the judge advocate general of the army to make an interpretation of the law, and a copy of his opinion has just been received at department headquarters.

It was thought here at first that officers on leave, or on sick report, would be debited with detached service, but apparently this is not the case. In part the opinion reads as follows: "The period between the approval of the proviso, August 24, 1912, and the date of its taking effect, December 15, 1912, is one of preparation for meeting its requirements, and

### DIPLOMATS PREPARE TO DOWN MARTIAL PLANE

England, France And Germany Counsel Moderation—Bulgars Hurrying North Peace Terms Submitted To The Allies By The Sultan's Ambassadors Through Open Wide The Door For Future Difficulty—Situation In Europe Grows More And More Strained As The Armies Of The Great Powers Are Assembled. Cholera Spreading In Bulgaria And Servia

[Special Star-Bulletin Cable]

LONDON, Nov. 25.—Great Britain, France and Germany are counselling moderation today and a series of united letters have been interchanged which shows that the diplomatic relations have not yet become strained although the military maneuvers of governmental powers are making war preparations. Diplomatic representations were today made by German envoys to the British, French and Italian governments, and to Austria, at Vienna, that their own wish is to avoid further complications in the Balkans. Great Britain has sent a cable to Serbia, Greece and Rumania, forwarding those countries that England is not interested in further claims to a part of the Aegean and that Great Britain will not support this claim to arms against others to which it is not a party. With the military moves made by the great powers in view, war, the situation here today is distinctly sobering.

### FORTE PROVES DEFIANT STILL

LONDON, November 25.—When the international situation grows more and more strained and the Powers are reaching the end of their rope, the peace negotiations are going on outside of the usual channels of diplomacy and the actual fighting between the Allies and the Turks is increasing. The result of the conference is known. It is reported here on fairly good authority that the Sultan has been asked to insist upon holding onto the city of Adrianople and the surrounding area, as well as his refusal to pay indemnity to the Allies. This report has caused considerable alarm among the Allies, as it is pointed out that if Turkey maintains her control of Adrianople, the progress of Austria-Hungary will be thwarted and the final outcome is not to be held open her claims to a port on the Aegean. This would completely cut off all Powers are anxious to avoid. The situation of an industrial revolution that is likely to cause a resumption of hostilities, as the Allies are believed to be counting upon a payment large enough to enable them to pay to their heavy war expenses.

It is reported here that cholera is making rapid headway in Bulgaria and Servia and that the Allies have already lost heavily by the disease. VIENNA, Austria, Nov. 25.—The Austrian consul reported yesterday by Servians arrived today at Ustka. VIENNA, Austria, Nov. 25.—International tension, high yesterday and last night that it seemed stretched to the breaking point, is decreasing today. Nevertheless it is generally admitted that all the powers are continuing preparations for mobilization, fearing unforeseen developments. CONSTANTINOPLE, TURKEY, NOVEMBER 25.—It is reported that 30,000 Greeks from Monastir are en route to reinforce the Bulgarians at Tchatalja.

PARIS, FRANCE, NOVEMBER 25.—Prince Victor Napoleon, president of Napoleon III, is mentioned as sovereign of the future state of Albania, which, it is now believed, will evolve from the present struggle.

[Special to the Star-Bulletin]  
VIENNA, AUSTRIA, November 25.—It is reported here today that one at least of the Balkan Allies, Bulgaria, has determined to stand by Serbia in her opposition to Austria's plans. A report reached this city today that Bulgarian troops are being recalled from the Turkish territory to cross over into Serbia and will be hurried toward Belgrade. Scattered reports indicate that a large number of soldiers have been stopped in their steady march on Constantinople and are now hurrying with all speed toward the Serbian border. Meanwhile preparations are going on at Belgrade to defend the city against any attack from the north. The upper Danube is the scene of stirring war preparations and it is tacitly admitted that both countries are about ready to clash. WASHINGTON, D. C., November 25.—Although not officially given out by the Navy Department, it is stated here in administration circles that one or more cruisers will be made ready for early departure to the Near East.

LONDON, England, November 25.—Intense and increasing excitement over the prospect of the spreading of the war in Europe characterizes the situation here today. An unconfirmed report states that the peace plenipotentiaries which met this morning at Tchatalja were unable to reach any terms of agreement.

### Lawrence Agitators Freed

[Associated Press Cable]  
SALEM, Mass., November 25.—After a remarkable trial and one which has been the center of interest in the country over, the three I. W. W. workers charged with complicity in the shooting of a young woman during the mill strikes in Lawrence last January, were acquitted, and Joseph E. Taylor, Arturo Giovanitti and Frank Canino walked from the court room free men, to be met with a great demonstration on the part of workers of all kinds who had been waiting for the jury verdict. Not only was there no direct connection established between any act of the labor leaders during the big Lawrence strike and the shooting of the woman, but the prosecution failed to show that the three men had incited the crowds of strikers to violence. William M. Wood, head of the American Woolen Company, has since been arrested, charged with "planting" the dynamite at Lawrence, the finding of which was first taken as damaging evidence against the labor leaders. The opening of the trial today is taken as a victory for the workers who participated in the Lawrence riots.

### Catch Chinese On Nippon Maru

[Special Star-Bulletin Cable]  
SAN FRANCISCO, November 25.—Four Chinese girls, dressed as maids, were arrested on the gang plank of the T. K. K. liner Nippon Maru, when that liner reached here yesterday afternoon from Honolulu and the Orient. One of them, Leong Moon, had shipped on board the vessel as interpreter. She was arrested, charged with smuggling Chinese into the United States.

### 'THINGS CHAOTIC' SAYS MR. BISHOP

"Things are in rather a chaotic state on the mainland," said E. Faxon Bishop, who returned this morning from New York, where with E. D. Tenney and J. P. Cooke he concludes a renewal of the contract of the Sugar Factors Company with the American Refining Company. "Opinions on the question of tariff legislation differ according to the persons expressing them, and one man's opinion is as good as another's. "It is pretty well settled that there is going to be some reduction in the sugar tariff, but whether it will be a conservative or a radical cut is a matter of guesswork. "General business was good when I left, but since then I see that New York is rather unsettled. "Mr. Bishop would offer no opinion regarding the probable effect on the sugar market of a European war."
